- **Tools**: Git, GitHub, VS Code, Eclipse

EDUCATION

Sindh Madressatul Islam University, Karachi   Jan 2021
B.S. Computer Science   *7th Semester*

Govt Islamia Science College, Karachi (Pre-Engineering)   April 2020
Intermediate with Karachi Board   *Percentage: 83.45/100*

PERSONAL PROJECTS

Banking Management System | *Java, OOP, Oracle, SQL, JDBC*   Apr. 2025

- ∗ Built a console-based banking system with Java classes for user login, account handling, and transaction management.
- ∗ Implemented functionalities: login system, credit/debit operations, money transfer, and balance check using JDBC.
- ∗ Used Oracle database for data persistence and managed transactions with SQL queries.

Hospital Management System | *Java, OOP, Oracle, SQL*   Mar. 2025

- ∗ Developed a basic hospital management system using Java classes to manage patients, doctors, and appointments.
- ∗ Implemented core features: view/add patient, view doctor, and book appointment using OOP concepts.
- ∗ Utilized Oracle database with SQL queries for data storage and retrieval via JDBC.

OLX Clone Web Application | *ReactJS, JavaScript, React Router DOM, React Redux, Firebase*   Sept. 2024
olx-clone.app/

Weather App | *ReactJS, Git, VS Code*   May. 2024
